VERSATILITY
DESIGN
AWARDS**

Brought to you by

NELMA® nelma.org

2015 DESIGN CHALLENGE:

*Design a contemporary,
single-family home that
significantly features Eastern
White Pine. Must incorporate
at least 3 different Eastern
White Pine grades.*

The **2015** Rich Quitadamo Sustainable Versatility Design Award

A leading voice on the Committee to develop this activity was Rich Quitadamo, a veteran member of the group that was instrumental in establishing this annual student architect competition to design a project out of Eastern White Pine. Rich made the motion at the Committee's October 22, 2010 meeting for NELMA to pursue this educational activity. His input helped shape the Association's marketing plan for more than 12 years, before his untimely passing in 2013.

To honor his unselfish work and participation in NELMA to the benefit of all its members, we are pleased to announce the naming of this annual student competition award, The Rich Quitadamo Sustainable Versatility Award, presented to each year's First Place winner beginning with the 2013-2014 Presentation.
